# **WEATHER KEY POINTS**

**05/22/19 - 05/28/19**

## **Tuesday-Friday**

- Windy conditions continue today, primarily across Southern Region, with gusts 40-55 mph expected
  - Gusty winds could impact travel, especially for larger vehicles. Light, unsecured objects may become airborne.
  - Damage to tree limbs and power lines is possible
- Showery conditions continue across the state through the work week, especially along the higher terrain
  - The debris flow threat on burn scars is very low. Debris flows are not likely.

## **Saturday-Tuesday**

- Another storm system will move into California for the holiday weekend, bringing an increased threat of showers, thunderstorms, and gusty winds, especially Saturday and Sunday
  - Accumulating snow is possible again in the Sierra above 7500 feet
  - The heaviest precipitation will likely be focused on the northern half of the state, but there is a chance of precipitation for Southern Region as well
